To Whom it May Concern:

Southern Perfection Painting is a wonderful company to work with. For the 2nd year in a row they have been presented with the very unique challenge beautifully. Prior to that they performed an exterior painting project of multiple houses for us with in a very short period of time which was accomplished superbly.

They are professional, organized, and so easy to work with. We have several different exterior home projects coming up from deck repairs to full home paintings. We have already reached out to their team to get these projects going because we love to work with them. Rating 5 stars would not be enough!

Sincerely,

A handwritten signature in black ink, appearing to read "Mika Bethke", with a long horizontal flourish extending to the right.
